(57)Abstract:

PURPOSE: To obtain the device of multi-function having general usefulness by providing means to input and read data concerning transaction, to send and receive the data with an external part by a radio and to issue a slip, etc., in a portable terminal equipment.

CONSTITUTION: When there is no commodity, which is desired by a customer, on a commodity display stand, the keyboard of a portable terminal equipment 1 is operated and an input is executed to a main ECR by the radio. Then, a main memory 4 is retrieved and the stock of the commodity is investigated. After that, an investigated result is displayed on a display 13 of the equipment 1. When the equipment 1 is operated and order information are inputted, an ECR2 subtracts the stock data of the memory 4 and issues the order slip from a printer 14 of the equipment 1. The customer can use the equipment 1 and receive the certification of the credit card of the customer itself and a result is displayed on the display 13 and printed by the printer 14. Thus, the device of the multi-function having general usefulness can be obtained.
